

Revenue-Neutral Rate Adjustment

Tri-County
Electric Cooperative

A Touchstone Energy® Cooperative 

Energy Charge

Rate Class	Current	New	Change
 Single Phase 75 kVA or less	\$0.13185 /kWh	\$0.10064 /kWh	 -\$0.03121
 Three Phase 75 kVA or less	\$0.13160 /kWh	\$0.10972 /kWh	 -\$0.02188

Summary

Energy charges are decreasing for both single phase and three phase 75 kVA or less members, while the demand charge is increasing from \$2.00 per kW to \$6.00 per kW.

In short, it's a rate restructure that keeps total revenue the same, much like balancing a scale rather than adding weight.

WHERE CAN I LEARN MORE?

We will put out more information on our website www.tricountyelectric.org as well as our Rural Missouri and digital newsletter. As always, you can call with questions 660-457-3733.

To help you plan ahead, we are currently building a friendly interactive bill calculator for our website! This tool will let you plug in your own usage history so you can see how these adjustments affect your bill. It to be live and ready for you to use by mid-to-late August on our website.
